The future of electricity is changing fast.

As a sponsor of SEPA’s Grid Evolution Summit, you will have access to the leaders from across the electricity sector at a time when they are deciding how to move forward. This is your seat at the table.

The ideas and concepts developed at Grid Evolution Summit are the blueprints that will engage energy customers, facilitate a place for all stakeholders and ensure a flexible and responsive electric grid.

The industry players that attend SEPA’s Grid Evolution Summit:
